The new generation Adiatek quartz scrubber machine provides a flexible and compact solution from medium to big size areas with a working capacity up to 4710 m<sup>2</sup> /h. Deliver the comfort and performance of a ride on machine cleaning with unmatched maneuverability and visibility. The battery powered stand-up scrubber offers unbeatable cleaning performances featuring two 350W brush motors. This floor scrubbers is provided with a tough roto-molded polyethylene body and a 100 liters solution tank. The detergent solution flow rate can be adjusted directly from the dashboard in order to be able to switch from high to low without stopping from cleaning. - Total Ergonomic design in order to be productive and easy to get on and off. - 360 degrees visibility and total access around the machine. - Large solution tank capacity and easy control of the detergent solution flow rate. - Automatic cut out if operator steps off the machine. - Large recovery tank opening designed for an easy internal cleaning.
